INTEGRATE

Introducing the Voyager Maintenance Solution

At U.S. Bank Voyager, with our partner Auto Integrate, we have enhanced our automotive maintenance payment process utilizing the Voyager® Maintenance Solution.

Our new process is designed to reduce the complexity and cost associated with invoicing and payment for both your business and our mutual clients. The benefits of the program include:

- Daily settlement payment
- Cardless transactions
- Real-time credit authorization
- Reduced telephone traffic & disputes
- Automated invoices at agreed costs
- Extensive client base

You have taken the first step in enrolling by registering with Auto Integrate and accepting Voyager® Maintenance Solution as a Fleet Company within Auto Integrate. The next step is for you to contract directly with U.S. Bank Voyager.

Note: You will only be able to transact through the Voyager® Maintenance Solution program once you contract with U.S. Bank Voyager.

For assistance in contracting, and to learn more about our program, please contact U.S. Bank Merchant Support at 800.987.6590 or newmerchantapplications@usbank.com.
